Theories of Impoverishment and the Current Housing Crisis

Discussion Questions

1. Take on the viewpoint of advocates of the theory of poverty your group is discussing. From this view, how would you understand the cause of the housing crisis? What's your diagnosis of the problem?

2. Again, taking on the point of view your group is discussing, what solutions might you propose to the current housing crisis? What's your prescription for the problem?

3. Now, from your own point of view, how would you critique this theory of poverty? What are its limitations? What are its assumptions? What other problems, if any, do you see with it?
